

Playing with Paint

CLASSROOM SET UP

CLASSROOM SET-UP

Hard floors and access to water are best for this class.

We will be using textile paints that could be permanent on carpet. It is possible to tape down plastic around the paint tables and use plastic bins of water to scrub the screens if necessary, but easier with hard floors and sinks nearby.

Teaching tables - 2, one to teach at and one for merchandise and extra supplies
front of room

screen or wall on which to project live demonstrations
extension cord and power strip for Lyric's AV equipment

Student tables

3' x 3' table space per student with a clear view of the screen/wall
students don't need lots of room at their table

Paint tables -2 pushed together

closest to water source
room to walk around tables easily

raise the tables if you have the ability to do so as we will work standing

Irons and boards: at least two, most preferably four

Two hair driers (for speeding the drying of paint)

VOLUNTEER SHOPPER

*If the guild could provide these materials it would greatly help Lyric fit the rest of her supplies into airline luggage limits. Please save your receipts so that Lyric can reimburse you. **Please contact Lyric 2 weeks before class if any of these supplies cannot be provided, each is necessary to the success of the class.***

Baking Parchment (3' per ironing board)

Freezer paper (1/2 roll)

Plastic spoons (9 or 10)

Small paper plates (2 per student)

Cups for water

Newspaper to protect tables and as a cutting surface

Paper Towels

Cheap bleached white cotton muslin/fabric from JoAnnes

1 yd, 36" wide per student

you can find 40% and 50% coupons at <http://www.joann.com>

quality is not important - this is throw-away-try-out-new-techniques material
