Art in Motion

Regardless of the medium this exhibit is meant to express the excitement of movement. Entries may be 2-D or 3-D, wall hung, suspended in space, supported by a pedestal, or free-standing on a floor.

Still Waters Run Deep Series 3
by Kaye Lipscomb

Hip to be Square by Desmond Black

The ceiling in the Sara Braaten Gallery is over 17 feet high and the entrance lobby about 21 feet high, therefore it is possible to suspend hanging pieces that are fairly light weight. There is a 35 pound weight limit for art suspended from the ceiling.

Please contact the Bower Center if you will be considering art to be suspended to discuss size, Weight, and method of hanging.

If this sounds new to you, or something to explore as a challenge ... here are examples to get ideas formulating.

Kinetic Art is any medium that contains movement perceivable by the viewer or that depends on motion for its effect. So show us your mobiles, or any art that has moving elements or gives the feeling of motion. This exhibit is for art that's got THE MOVES!
